

I. Label format

When "Default Label Format Number" is selected, the product label printed is the default label format number.

When "Label Format in the Commodity File" is selected, the product label format printed is the label format in the commodity file. The setting operation is as follows:

Method 1: Combined key operation, using label format

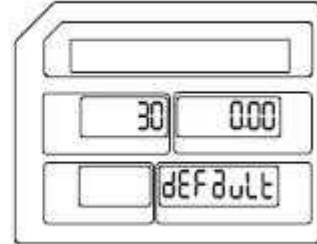

Use the default label format

For example, use the No.30 label format.

Hold [ZERO] button with your right hand, and then

press [] with your left hand, then release your hands, the screen display as [ZERO] + [P30]

After the operation is completed, the product labels format change to No.30 label format.

(Note: after operating [ZERO] + [P48], the product label format is the label format in the product file).

Method 2: Enter "User Setting", change SP014 parameters, use label format

Use the default label format

For example, use the No.30 label format.

Enter "User Setting", hold [ZERO] with your right hand, and press [141] with your left hand at the same time, then release your hands.

the screen display as [ZERO] + [141]

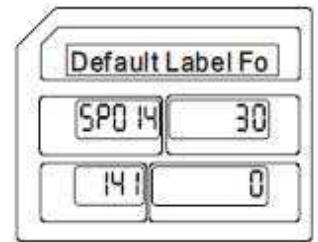

Change to SP014

Press [14 X]

Use the No.30 label format

Press [30]

Confirm

Press [PRINT]

Save

Press [SAVE]

After the operation is completed, the product labels format change to No.30 label format.

(Note: When using No. 0 label format, the product label format is the label format in the product file)

II. LABEL FEED ADJUSTMENT

1. Hold [ZERO] and press “1” + “1” + “3”
2. Press [OVERRIDE] key and Press [PRINT]
3. Press “72” for down. Press “88” for up. Increase or decrease # by 8 to find the best label position.
4. Press [PRINT] to save and Press [FEED] to exit.
5. Press [FEED] key 3 times and take 3 labels out.
